

12 FEBRUARY 2021
**FY20 FINANCIAL
RESULTS
PRESENTATION**

Disclaimer

This presentation contains general information in summary form which is current as at 31 December 2020. It may present financial information on both a statutory basis (prepared in accordance with Australian accounting standards which comply with International Financial Reporting Standards (IFRS)) and non-IFRS basis.

This presentation is not a recommendation or advice in relation to Genworth or any product or service offered by Genworth's subsidiaries. It is not intended to be relied upon as advice to investors or potential investors, and does not contain all information relevant or necessary for an investment decision. It should be read in conjunction with Genworth's other periodic and continuous disclosure announcements filed with the Australian Securities Exchange (ASX). These are also available at genworth.com.au.

No representation or warranty, express or implied, is made as to the accuracy, adequacy or reliability of any statements, estimates or opinions or other information contained in this presentation. To the maximum extent permitted by law, Genworth, its subsidiaries and their respective directors, officers, employees and agents disclaim all liability and responsibility for any direct or indirect loss or damage which may be suffered by any recipient through use of or reliance on anything contained in or omitted from this presentation. No recommendation is made as to how investors should make an investment decision. Investors must rely on their own examination of Genworth, including the merits and risks involved. Investors should consult with their own professional advisors in connection with any acquisition of securities.

The information in this presentation is for general information only. To the extent that certain statements contained in this presentation may constitute "forward-looking statements" or statements about "future matters", the information reflects Genworth's intent, belief or expectations at the date of this presentation. Genworth gives no undertaking to update this information over time (subject to legal or regulatory requirements). Any forward-looking statements, including projections, guidance on future revenues, earnings and estimates, are provided as a general guide only and should not be relied upon as an indication or guarantee of future performance. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause Genworth's actual results, performance or achievements to differ materially from any future results, performance or achievements expressed or implied by these forward-looking statements. Any forward-looking statements, opinions and estimates in this presentation are based on assumptions and contingencies which are subject to change without notice, as are statements about market and industry trends, which are based on interpretations of current market conditions. Neither Genworth, nor any other person, gives any representation, assurance or guarantee that the occurrence of the events expressed or implied in any forward-looking statements in this presentation will actually occur. In addition, please note that past performance is no guarantee or indication of future performance.

This presentation does not constitute an offer to issue or sell securities or other financial products in any jurisdiction. The distribution of this presentation outside Australia may be restricted by law. Any recipient of this presentation outside Australia must seek advice on and observe any such restrictions. This presentation may not be reproduced or published, in whole or in part, for any purpose without the prior written permission of Genworth. Local currencies have been used where possible. Prevailing current exchange rates have been used to convert foreign currency amounts into Australian dollars, where appropriate. All references starting with "FY" refer to the financial year ended 31 December. For example, "FY20" refers to the year ended 31 December 2020. All references starting with "1H" or "2H" refer to the half year ended 30 June or 31 December, respectively. For example, "2H20" refers to the half year ended 31 December 2020. All references starting with "1Q", "2Q", "3Q" or "4Q" refer to the calendar quarter ended 31 March, 30 June, 30 September or 31 December, respectively. For example, "4Q20" refers to the quarter ended 31 December 2020.

Overview

Pauline Blight-Johnston, CEO and Managing Director

Responding to the challenge of COVID-19

COVID-19 impacts have continued

2020 impacted by COVID-19 related reserving

- FY20 Underwriting result of \$234m loss.
- FY20 Statutory NPAT loss of \$108m.
- FY20 Underlying NPAT loss of \$104m.

Economic environment improving

- Headline unemployment and house prices have improved.
- Deferrals and support packages impacting patterns of claims and delinquencies.
- Key economic indicators tracking ahead of central estimate assumptions.

Strong volume growth

- FY20 New insurance written increased 18.1% to \$31.6b.
- FY20 Gross written premium increased 29.7% to \$562m.
- FY20 Net earned premium increased 4.6% to \$312m.

Support measures delaying claims

- Active deferrals 8,162 (3Q20 reported: 31,139).
- Deferrals are impacting claim occurrence, notification and cure.
- 4Q20 refined delinquency reserving methodology increasing net claims incurred by \$109m (guidance \$110m).

Capital strength and flexibility

- PCA coverage ratio 1.65x (Level 2 basis).
- Surplus capital of \$203m above top of Board PCA target range.
- \$800m excess of loss reinsurance coverage renewed 1 January 2021.

2020 impacted by COVID-19 related reserving

Claims delayed due to government stimulus measures and deferrals

Financial results overview	FY19	FY20	Change
Gross written premium (GWP)	\$433.2m	\$561.7m	29.7%
Underwriting result	\$42.1m	(\$234.0m)	N.M. ¹
Insurance profit / (loss)	\$108.0m	(\$174.1m)	N.M.
Statutory net profit / (loss) after tax (NPAT)	\$120.1m	(\$107.6m)	N.M.
Underlying net profit / (loss) after tax ²	\$97.0m	(\$104.3m)	N.M.
Underlying diluted earnings per share	23.1cps	(25.2cps)	N.M.
Ordinary dividend per share	16.5cps	-	(100.0%)

Key financial measures	FY19	FY20	Change
New insurance written (NIW)	\$26.7b	\$31.6b	18.1%
Net earned premium (NEP)	\$298.2m	\$312.0m	4.6%
Loss ratio	50.6%	92.9%	83.6%
Closing delinquencies	7,221	6,964	(3.6%)
Delinquency rate	0.56%	0.58%	2bps
Prescribed capital amount (PCA) coverage ratio	1.91x	1.65x	(26bps)

- **GWP** growth reflecting higher LMI flow volumes across lender customers with underwriting quality remaining strong.
- **Underwriting result** lower due to COVID-19 related impacts including the 1Q20 DAC write-down and 4Q20 refined delinquency reserving methodology.
- **Dividend per share** not paid at interim or final due to the uncertain economic outlook, APRA's regulatory guidance and the Company's statutory NPAT loss.
- **Loss ratio** reflects increased reserving during FY20 for anticipated COVID-19 claims and refined delinquency reserving.
- **PCA coverage ratio** 1.65 times above the top end of Board target range of 1.32 to 1.44 times.
- **Delinquency rate** increased despite reduced delinquencies due to increased policy cancellations.

1. N.M. Not Meaningful (increases or decreases greater than 100%).

2. YTD 31 Dec 20 underlying NPAT loss excludes after tax impacts of (a) unrealized losses of \$1.8m on the investment portfolio and (b) foreign exchange rates (net of hedge) on the investment portfolio (\$1.5m loss).

Source: Genworth

Economic environment improving

Recovery supported by easing COVID-19 restrictions and stimulus measures

Unemployment

Unemployment peaked in July 2020 at 7.5% and has fallen to 6.6% at December 2020. This is tracking better than our 2021 economic assumptions.

Data sourced from ABS at Dec'20

HPA

National house prices fell 2.1% from the most recent peak in April 2020 before recovering over the past quarter to December 2020 by 2.3%. This is tracking better than our 2021 economic assumptions.

Data sourced from Corelogic's Hedonic Home Value Index at Dec'20

GDP

Yearly GDP bottomed at -6.4% in June 2020 before recovering by 3.3% in the September 2020 quarter taking yearly GDP to -3.8%. December 2020 data will be released in early March 2021.

Data sourced from ABS at Dec'20

Strong volume growth

Housing market activity resilient and key lender customers taking market share

New insurance written

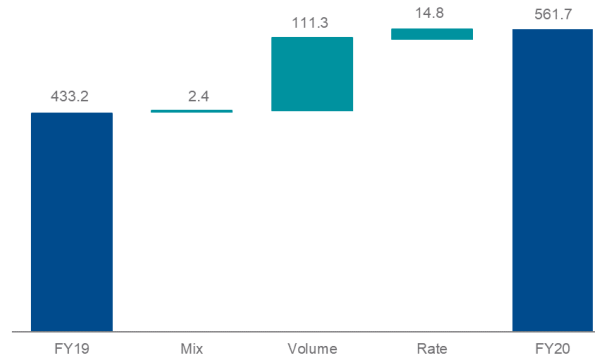

\$b

- Key lender customers growing home lending above system.
- Owner-occupiers and first home buyers supporting lender customer mortgage flows.

Gross written premium

\$m

- Higher business volumes are the main driver of growth.
- Small positive contributions from mix and rate.

Net earned premium

\$m

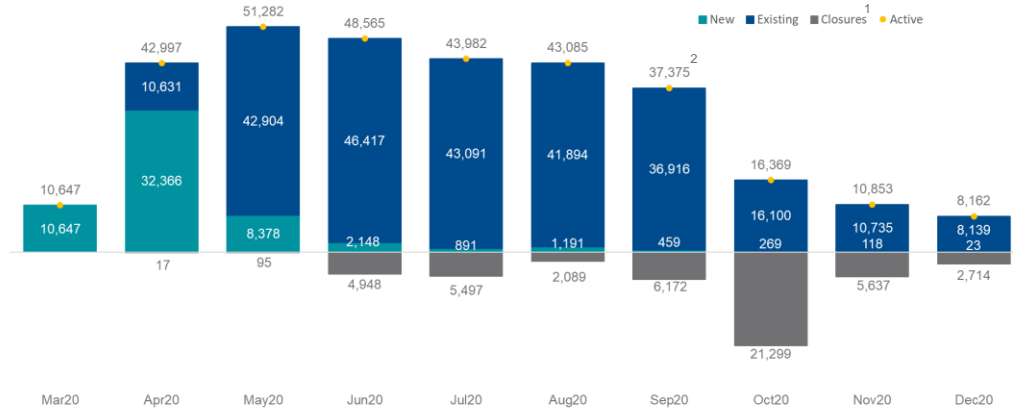

- Strong GWP growth will drive future NEP growth.
- No change in earnings curve.

Support measures delaying claims

4Q20 refined delinquency reserving methodology

Deferral time series

1. Closures are based on lender notification and deferral expiry dates.
 2. 31,139 reported at 3Q20.

By state

- 1,246 (3%) of the 48,468 loans that have exited deferral are delinquent
- 289 (4%) of the 8,162 active deferrals were delinquent at the commencement of deferral.

9 | FY20 financial results – produced by Genworth.

4Q20 refined delinquency reserving methodology breakdown

	\$m
Deferrals	22.9
Non deferrals	73.3
Claims handling expenses, recoveries and risk margin	13.0
Total additional reserve	109.1

Note: Totals may not sum due to rounding.

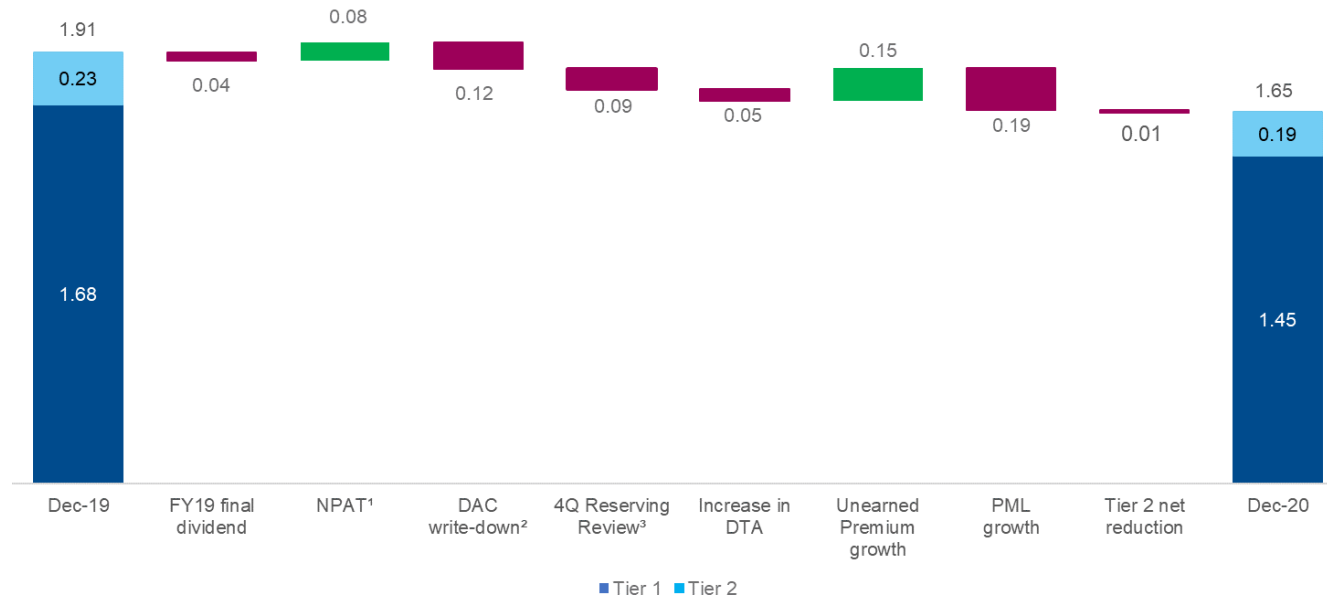

- Analysis demonstrates previously delinquent loans have a materially increased rate of re-delinquency that persists for the remaining life of the loan.
- Previous reserving methodology assumed delinquency risk returned to normal 6 months following cure.
- 4Q20 refined delinquency reserving methodology sees reserves now held for all policies that have at any point experienced delinquency, up until the associated policy is cancelled or a case reserve is established.
- 4Q20 refined delinquency reserving methodology increased 4Q20 net claims incurred by \$109m (guidance \$110m) to \$138m (guidance \$135m-\$150m).

Source: Genworth

Capital strength and flexibility

Strong capital and reinsurance program successfully renewed

PCA ratio walk

Note: Totals may not sum due to rounding.

1. NPAT excluding 1Q20 DAC write-down (net of associated amortisation) and 4Q20 reserving review

2. After tax impact of \$181.8m DAC write down in 1Q20, less associated DAC amortisation benefit of \$12.3m in 2Q20, \$12.7m in 3Q20 and \$12.4m in 4Q20.

3. After tax impact of \$109.1m increase in IBNR as a result of the reserving methodology review in 4Q20.

Strong capital position underpinned by:

- PCA ratio of 1.65 times, with surplus capital of \$203m above the top end of Board target range.
- Tier 1 ratio 1.45 times, significantly above the minimum 0.8 times regulatory requirement.
- \$190m of 2030, 10 non-call 5 year Tier 2 subordinated notes on issue.
- \$800m 2021 reinsurance program (46% of PML vs 60% regulatory limit) renewed 1 January 2021.

Source: Genworth

Strategic customer focus

Repositioning the customer value proposition for sustainable growth

Improve the efficiency and competitiveness of LMI

- Over 50 active lender partnerships across major banks, non-major banks, mutuals and non-bank lenders.
- Rapid response to support customers and brokers impacted by COVID-19.
- Partnering to solve customer pain points.
- Improved efficiency with new organisational design.

Reimagine LMI for a new generation of homebuyers

- Monthly Premium product now in market.
- Using Human Centred Design process to redesign LMI solutions to better meet changing lender, borrower and societal expectations.

Leverage our core capabilities into complementary offerings

- Housing affordability remains a challenge for many.
- Evaluating new opportunities to apply our capabilities to help solve this challenge more broadly.

FY20 Financial result

Source: Genworth

- National prices are up 0.4% from 1Q20. Melbourne house prices in particular have been impacted by the recent COVID-19 lockdown.
- The December 2020 unemployment rate was down 80 bps over the half (and down from 6.9% at 3Q20). Government stimulus programs are scheduled to be phased out over the course of 1H21.
- The delinquency rate was down 4 bps over the half (and down from 0.62% at 3Q20) reflecting lower delinquencies. Victoria was up 1 bp over the half (but down from 0.49% at 3Q20 as the state exited lockdown).

Net claims incurred

Repayment deferrals interrupting claim occurrence, notification and cure

Closing reserves	349.9	362.5	367.9	360.9	360.9	366.0	398.8	416.7	540.4	540.4

Note: Totals may not sum due to rounding.

1. Movement in non-reinsurance recoveries is excluded from average paid claim calculation and claims paid

2. Ageing relates to reserve movements on delinquencies that remain delinquent from prior periods.

3. Includes COVID-19 actuarial adjustments relating to policies affected by court closures, IBNR for policy deferrals, an increase to the risk margin and an increase for the allowance of cured policies re-entering arrears.

4. Includes non-reinsurance recoveries

FY20 net claims incurred movements driven by:

- Lower claims paid and ageing due to mortgagee in possession moratoriums.
- New delinquencies remain lower due to repayment deferrals.
- Increased reserving due to COVID-19 related factors and 4Q20 refined delinquency reserving methodology.

Note: Totals may not sum due to rounding.

1. Includes trade receivables, plant and equipment and right-of-use assets.

2. Includes reinsurance payables, lease liabilities and other payables.

17 | FY20 financial results – produced by Genworth.

2H20 commentary:

- **Deferred reinsurance expense** reduced as the deferred reinsurance premium was amortised.
- **Deferred acquisition costs (DAC)** increase reflects the capitalisation of new acquisition costs post the 1Q20 DAC write-down.
- **Outstanding claims** movement driven by additional COVID-19 related reserving and 4Q20 refined delinquency reserving methodology.
- **Interest bearing liabilities** movement due to the issuance and redemption of Tier 2 capital.

LAT surplus / (deficiency)	(181.8)	88.6	278.7
Premium liability assumptions			
Risk margin	17%	17%	17%
Probability of adequacy	70%	70%	70%

1. Takes account of Genworth's portfolio composition of home ownership in occupations and industries impacted by COVID-19 and is adjusted to normalize the effect of government income assistance.

2. 1Q20 disclosure of (5.8%) was "peak (since Dec-19)".

3. The pie chart includes excess of loss insurance.

Economic indicators adopted

- Central estimate adopted for the LAT assessment is based on mean view of external economic forecasts.
- Economic assumptions reflect the duration of assumed recovery and mitigating benefits of the government stimulus and lender initiatives.

Unearned premium by book year as at 31 December 2020³

LAT movement

- DAC write-down in 1Q20 of \$181.8m. Acquisition costs capitalised from 2Q20 onwards.
- The 4Q20 LAT surplus reflects unearned premium growth and a reduction in premium liabilities as part of the 4Q20 refined delinquency reserving methodology. This led to a corresponding increase to the outstanding claims reserve on the balance sheet.

NIW¹ by original LVR band and probable maximum loss

Note: Totals may not sum due to rounding.

1. NIW excludes excess of loss insurance.

Summary

Pauline Blight-Johnston, CEO and Managing Director

Delivering customer outcomes in a challenging environment

Repositioning the customer value proposition for sustainable growth

Sound business fundamentals and strong customer focus

- GWP growth supporting future NEP growth.
- Improved lender customer net promoter score.
- Monthly premium product launched.

Outlook continues to be impacted by COVID-19

- COVID-19 expected to generate sustained pressure on claims throughout 2021.
- Intent to recommence dividends when appropriate. Any payment of dividends during 2021 will require APRA approval.
- Strategic focus to enhance, evolve and extend our LMI proposition.

Capital strength and flexibility

- PCA coverage ratio of 1.65x comfortably above the Board's target range of 1.32 to 1.44x.
- Surplus capital above top end of target range of \$203m.
- Net tangible assets (NTA) \$3.33 per share as at 31 December 2020.

Reinsurance

2021 Reinsurance program

- The reinsurance program is designed to drive efficient economic capital credit, whilst also allowing for risk management in severe stress scenarios only.
- The 2021 program is structured on a paid claims basis for policies in-force plus two additional years of new insurance written. Cover is for one-year, with an option to extend to a full term (varying between 6-10 years depending on the layer).
- The 2020 program has been cancelled and re-written as paid claims were not expected to result in the reinsurance attaching.
- With the renewal of the 2021 program Genworth retains the first \$1.45b of paid claims after which reinsurance excess of loss cover of \$800m is in place.
- Consortium 2 was placed for \$50m with Genworth retaining the remaining \$150m on a quota share basis and Consortium 6 cover was increased. This has slightly reduced the overall annual cost.
- There are over 20 different reinsurers participating across the program with a minimum rating of A-.

Note: Excludes reinsurance on excess of loss insurance.

Glossary

As at 31 December 2020

Term	Definition	Term	Definition
Ageing	Movement in reserves on any insurance policy that remains in a delinquent state (3+ months of missed payments or Mortgage In Possession)	Expense ratio	The expense ratio is calculated by dividing the sum of the acquisition costs and the other underwriting expenses by the net earned premium
Book year	The calendar year an LMI policy is originated	Flow	Policies written by Genworth on a loan by loan basis at the time of origination by the lender customer
Capitalised premium	The cost of the LMI premium and related costs added to the loan balance(s) covered by the policy	GDP	Gross domestic product
Central estimate	The value of insurance liabilities which represents the average (i.e. statistical mean) of the estimated distribution of outcomes	GFI	Genworth Financial, Inc. (NYSE: GNW)
Combined ratio	The combined ratio is the sum of the loss ratio and the expense ratio	GEP	Gross earned premium - The earned premium for a given period prior to any outward reinsurance premium expense
Common equity tier 1 or CET1	Consists of total accounting equity, adjustments for certain reserves and adjustments for certain other items, such as intangible assets, which are excluded from the capital base	GWP	Gross written premium
COVID-19	A disease caused by a new strain of coronavirus. 'CO' stands for corona, 'VI' for virus, and 'D' for disease	HPA / HPD	House price appreciation / depreciation
Cures	A policy that either clears arrears to below 3 months of missed payments, or, sells the underlying securities with enough equity in the property to clear the arrears	IBNR	Incurred but not reported - Delinquent loans that have been incurred but not reported
DAC	Deferred acquisition costs - Costs associated with obtaining and recording mortgage insurance contracts which are capitalised when they relate to the acquisition of new business or renewals	IFRS	International Financial Reporting Standards
Deferral	Temporary relief granted to borrowers impacted by COVID-19 by lender customers, allowing them to defer loan repayments for a period of time. Active – comprised of new and existing deferrals Cumulative – All deferral notifications received to date Closures – lender notified opt outs and closures. Also includes expiry of deferral periods	Insurance in-force	The original principal balance of all mortgage loans currently insured (excludes excess of loss insurance)
Delinquency	Any insured loan which is reported as three or more months of repayments in arrears	Insurance margin	Calculated by dividing the profit from underwriting and interest income on technical funds (including realised and unrealised gains or losses) by the net earned premium
Delinquency rate	The delinquency rate is calculated by dividing the number of reported delinquent loans insured by the number of in-force policies (excluding excess of loss insurance)	Investment return	Total investment income divided by the average balance of the opening and closing cash and investments balance for the period, annualised
DTA	Deferred Tax Asset	JobKeeper / JobSeeker	Payment designed to help businesses affected by COVID-19 to cover the costs of their employees' wages / Financial help for people aged between 22 and the aged pension
		Level 2	A term defined by APRA under GPS 001 referring to a consolidated insurance group
		LAT	Liability adequacy test - AASB 1023 – <i>General Insurance Contracts</i> requires a LAT test. If the LAT test is failed, the DAC asset is written-down and an unexpired risk reserve established if there is a further deficiency after the write-down of DAC
		LMI	Lenders mortgage insurance

Glossary

As at 31 December 2020

Term	Definition	Term	Definition
Loss ratio	The loss ratio is calculated by dividing the net claims incurred by the net earned premium	Single policy view	Excludes additional policies issued for top ups and refinancing
LVR	Loan to value ratio High LVR – This LVR benchmark is commonly 80% Original LVR – Calculated using the base LVR at the time of settlement Effective LVR – Calculated using the (estimated current balance)/(approximate house price) of the loan.	Statutory NPAT	Net profit after tax
NEP	Net earned premium - The earned premium for a given period less any outward reinsurance expense	Technical funds	The investments held to support premium liabilities and outstanding claims reserves
NIW	New insurance written reflects the total loan amount that is insured in the relevant period. NIW for Genworth reporting purposes excludes excess of loss business written	Tier 1 capital	As defined by GPS 112, Tier 1 Capital comprises the highest quality components of capital that fully satisfy all of the following essential characteristics: (a) Provide a permanent and unrestricted commitment of funds; (b) Are freely available to absorb losses; (c) Do not impose any unavoidable servicing charge against earnings; and (d) Rank behind claims of policyholders and creditors in the event of winding up
PCA	Prescribed capital amount is an APRA formula (set out in Prudential Standard GPS 110) designed to ensure an insurer has adequate capital against risk	Tier 2 capital	As defined by GPS 112, Tier 2 Capital comprises other components of capital that to varying degrees, fall short of the quality of Tier 1 Capital but nonetheless contribute to the overall strength of a regulated institution and its capacity to absorb losses
PCA coverage	The PCA coverage is calculated by dividing the regulatory capital base by the prescribed capital amount	Top-ups	When a lender customer purchases additional LMI policies to cover an increase in the amount of original mortgage loan
PCP	Prior comparable period	Trailing 12 months underlying ROE	Divides the underlying NPAT of the past 12 months by the average of opening and closing underlying equity balance for past 12 months
PML	Probably maximum loss - The largest cumulative loss due to a concentration of policies, determined by applying a formula specified by APRA for LMI with specific factors for probability of default and loss given default and other components	Underlying diluted earnings per share	Underlying NPAT divided by the weighted average number of shares outstanding for the period, adjusted for the effects of all dilutive potential ordinary shares
Premium liabilities	Premium liabilities reflects the present value of (a) expected cash flows associated with anticipated future claims based on the net central estimate; and (b) risk margin	Underlying equity	Underlying Equity is defined as total equity excluding the after-tax impact of unrealised gains/(losses) on the investment portfolio, and the impact of unhedged movements in foreign exchange rates on Genworth's non-AUD exposures
QoQ	Quarter on quarter	Underlying NPAT	Underlying NPAT excludes the after-tax impact of unrealised gains/(losses) on the investment portfolio, and the impact of foreign exchange rates on Genworth's investment portfolio
Regulatory capital base	The regulatory capital base is the sum of Tier 1 Capital and Tier 2 Capital	Underlying ROE	The Underlying ROE is calculated by dividing Underlying NPAT by the average of the opening and closing Underlying Equity balance for a financial period
Risk margin	An additional amount that is added to the central estimate loss forecast and reserves to reflect the inherent uncertainty in forecasting loss outcomes	UEP	Unearned premium reserve
ROE	Return on equity – ROE is NPAT divided by the average of the opening and closing equity balance for a financial period	YTD	Year to date
Shareholder funds	The cash and investments in excess of the Technical funds
